Foreword

This is a book of poetry. The first section is the story of Keats writing and growing into a great Romantic poet. I have used a poetic license when writing the story's poems, letters, and quotes. Included, is works by poets before, during, and after Keats time. The book's images are of engravings from my old books, open source images from Wikipedia, and photos from my travels.

The second section is titled, *Others Worth Writing About*. The others are my friends and my heroes. The pieces are two pages with an introduction to the poetry. Then there is the independent pieces and fragments. This book format is a commonly used in books printed in the 1800's, of which I have more than a few.

For the curious, the afterword includes a list of the original poems and authors from which I drew inspiration.

*The great beauty of Poetry is,
that it makes everything
every place interesting.*

John Keats, 1819
